REF: measuring device in WD11

Dear Tim,

Attached is my map with the two options I'm considering for measuring devices on our canal from the Bear River.

1. We will look at putting an acoustic Doppler meter in the culvert to the ditch.
2. We will look at putting a ramped flume in the canal ahead of where Pearl Creek enters our ditch. With a return pipe back to the Bear River.

On our pump out of the Bear River in the NWSE of section 12, T10S, R42E we are putting a mag meter.

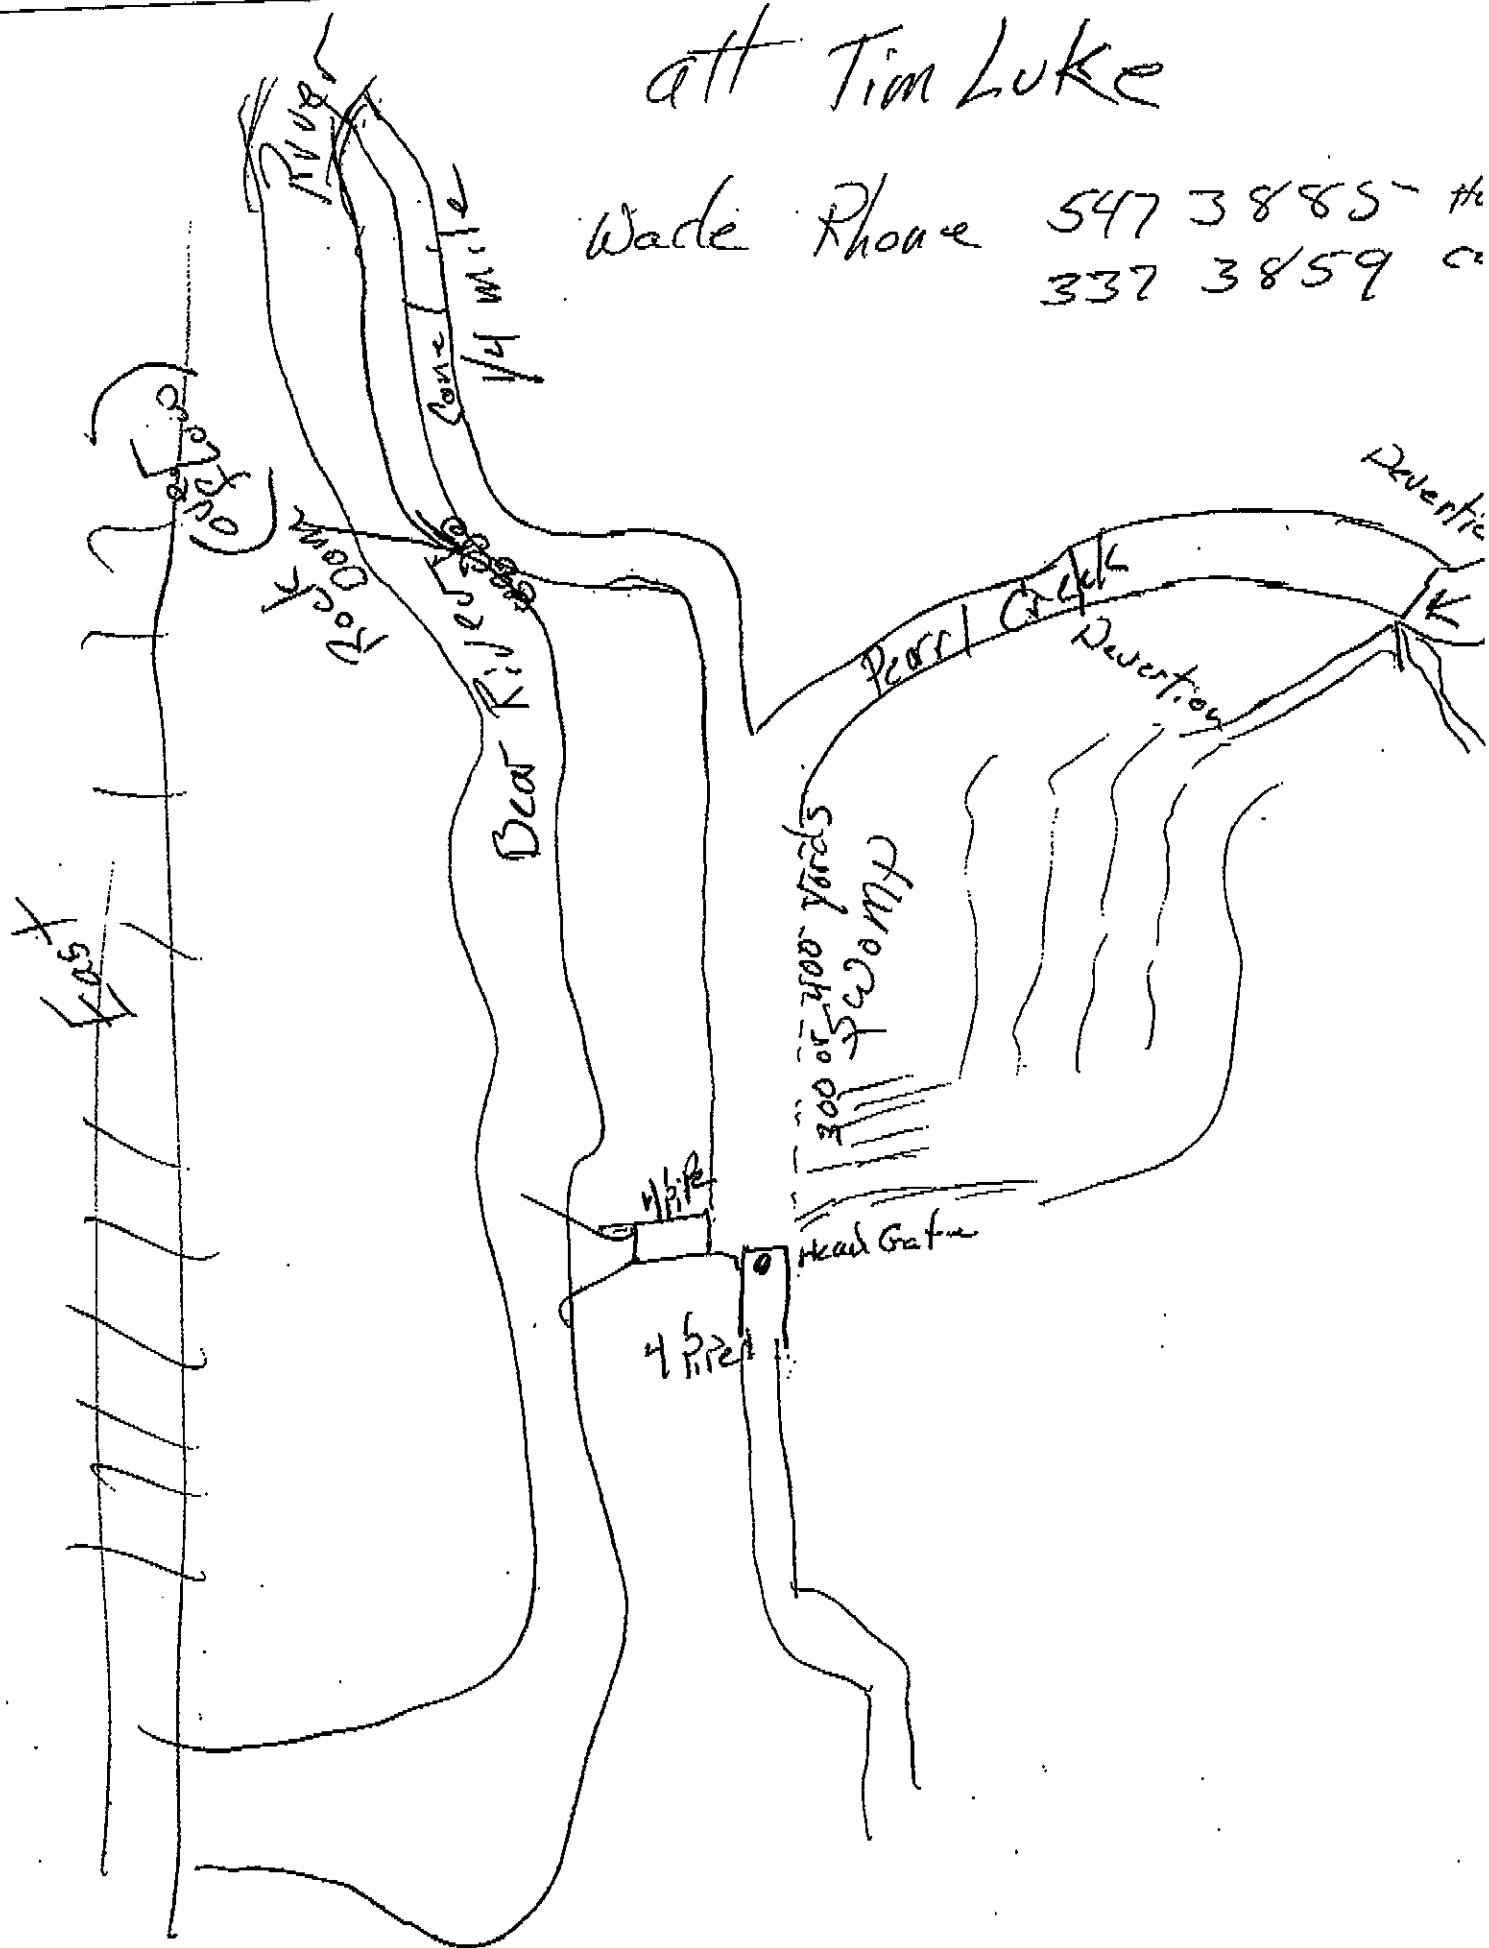

We understand that these measuring devices must be in place before diverting water next irrigation season.

Sincerely,

Wade Harris
Eight Mile Ranch

CC: Rock Holbrook, watermaster WD11
